

EW3223

Ratón óptico inalámbrico de 1000dpi

La combinación perfecta de rendimiento, precisión y fiabilidad

- Ratón óptico inalámbrico con receptor diminuto USB compacto
- Sensor óptico de 1000 ppp de alta precisión que funciona en prácticamente cualquier superficie como, por ejemplo, madera, granito, alfombras, etc.
- Tecnología inalámbrica de 2,4 GHz que proporciona un movimiento homogéneo y una señal de flujo desde 10 metros
- Función de ahorro de energía inteligente
- Fácil de instalar

DESCRIPTION

Enjoy cordless freedom with the Ewent EW3223 Wireless Optical Mouse! The mouse is ideal at home, in the office and while traveling. It's fitted with a nano receiver and an intelligent power saving mode to prolong battery life.

Attractive design, middle sized mouse

The EW3223 has an attractive design. Thanks to its size the mouse is good to handle, yet easy to carry with your laptop or netbook.

Optical precision, scroll wheel and nano receiver

You can now enjoy optical precision with 1000 dpi. Fitted with two buttons and a scroll wheel, the mouse supports all common functions. While traveling, the ultra small nano receiver can be stored in the bottom side of the mouse.

Plug in and use

Just plug the USB nano receiver into an available USB port on your computer. Insert the enclosed batteries into the mouse and it will connect to your computer immediately. You can use the mouse on all common operating systems, like Windows and Mac OSX.
