DESCRIPTION

Add one headset or speaker and microphone to your computer, notebook or netbook, using the Ewent EW3762 USB Audio Adapter. It is easy to install the EW3762, just plug the adapter into an available USB port. Discover how virtual 3D sound improves the quality of your music!

Speak and listen

You can listen to your music and video using a headset or speaker set connected to the EW3762. If you connect a headset with a microphone or even a separate microphone, you can also talk to your family, friends or game mates. It is compatible with instant messaging software.

Easy to install and carry along

The EW3762 is easy to install. The adapter is automatically recognized and installed in Windows and Mac. Because of the small size the Audio Adapter is easy to use and easy to carry along with you. You can use it at home, office and on the road on a computer, notebook or netbook!

With headset and microphone input

You are able to connect a headset or speaker set and microphone to the audio adapter. The EW3762 has two 3.5mm jack sockets. The sound card is also equipped with controls for adjusting volume and to mute the microphone and headphones / speakers.
