DESCRIPTION

With the EW3939 Power Block power socket you can connect 3 electrical devices and 3 USB devices at the same time. The USB ports have a total capacity of 2.4A and have overvoltage and short circuit protection. The three power outlets are equipped with child protection. You can put the Power Block on your desk. Use the included mounting pad to ensure that the Power Block stays in place. Enable or disable all power outlets and USB ports at once with the illuminated on/off switch.

3 Power outlets and 3 USB ports

The EW3939 cubical power socket has 3 power outlets for connecting 3 devices. The three USB ports are suitable for charging smartphones and tablets with a maximum load of 2.4A at once.

Enable or disable all power outlets and USB ports with 1 switch

Use the illuminated switch to enable or disable the whole power socket simultaneously. This is a good feature for your electricity bill AND for safety reasons. You prevent the use of standby power. It is safer to disable all electrical devices at once, instead of having all devices enabled all the time.

Space-saving design

The EW3939 has a space-saving cubical design and takes only limited desk space. All power outlets and USB ports are easy accessible. The included mounting pad ensures that the power socket stays in place.

Overvoltage, short circuit and child protection

The USB ports are equipped with overvoltage and short circuit protection. The power outlets have child protection.
