DESCRIPTION

With the Ewent EW1015 USB to IDE / SATA Converter you can easily connect a harddisk, CD-rom player, DVD-rom player or burner to your computer. The ideal solution if you do not want to open your computer case to mount a new device. You can simply connect or swap devices, even if the computer is already powered on.

Compatible with almost all Disk Drives

With a different connection on each side of the device, the EW1015 is compatible with almost all Disk Drives that have been sold the last two decades, and with many disk drives that will be sold in the next years. The EW1015 comes with an energy saving adapter to give suitable power to the Disk Drive you connected to it.

Compact black design

In accordance with the latest trends in computer design, the Ewent EW1015 USB to IDE / SATA Converter has a mat black look. The luxurious design makes the converter fit perfectly on the desk of today's computer user. Due to its small size, the converter can as well be used while travelling with your notebook.
