

EW1585

Adjustable Desk Clamp Stand for Headphones

- Ewent Aluminum Headphone Stand: It's simple and convenient to carry wherever you go - it's small, light and fashionable
- Unique Features: Built-in silicone hook protects the headband and prevents it from slipping.
- Attractive Design: The aluminum headphone stand is sophisticated and on-trend, making it the perfect addition to any Apple computer or accessory.
- Universal Compatibility: The aluminum headphone stand can be used for any brand of wired or wireless headphones and headbands.

DESCRIPTION

Children's room:

Are you annoyed with the clutter in the children's room? Having an Ewent headphone stand will help make the room tidier. The headset will not be in the way and the cable will be organized. The stand doesn't take up a lot of space on a desk or counter and keeps things tidy.

Indispensable for your home or office desk

This stand is a must-have item for you. Place the stand on any table and hang your headphones on it. Going out for dinner? Keep it in your bag and then use it at the restaurant; hang the bag next to you on the bracket. It will help prevent theft and loss. Have the headphones in one place and avoid leaving them in any way and anywhere.

Instead of leaving your headphones randomly lying on the table, allow it to have a place in your home.

Soft silicone plate, better grip

The earhook plate has a silicone surface that protects the earphone headband pad, preventing damage to the earphones. Also, it is made of solid, durable material.

Non-slip

The hook plate has a silicone protection to protect surfaces from whatever hangs on it; does not scratch the surface of what it is placed on and does not slide.

TECHNICAL

- Material: Aluminum (anodized) + Silicone
- Colour: black.
- Weight: 90 gr
- Dimensions: 110 x 30 x 92 mm
