GENERAL CATALOGUE

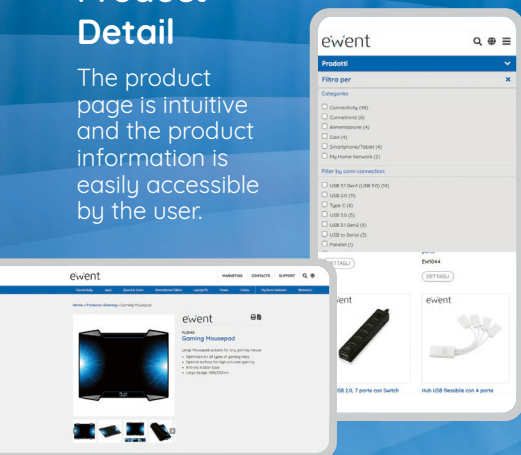

Join in the new website www.ewent-online.com

A new modern graphic design for easy access
to Ewent products!

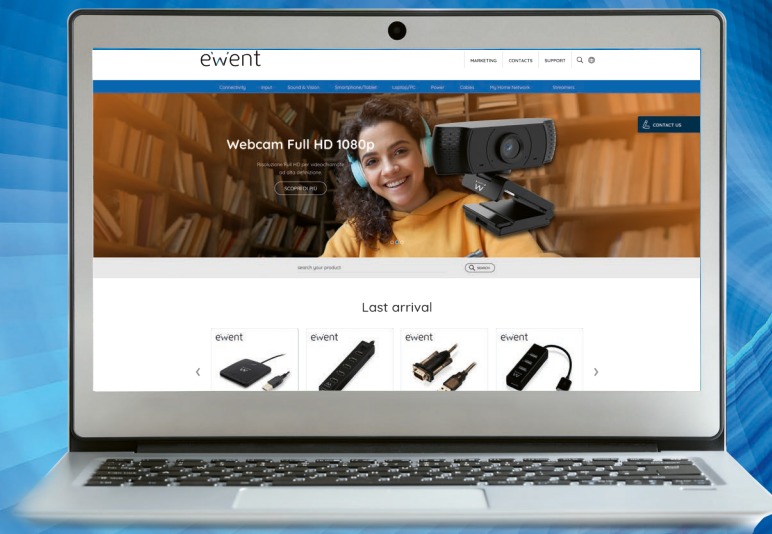

Product Detail

The product
page is intuitive
and the product
information is
easily accessible
by the user.

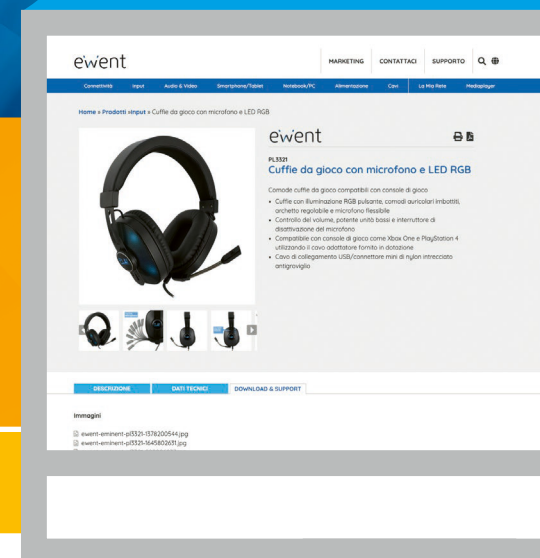

Simplified product search

Navigation is facilitated and product search
is immediate, thanks to both the menu
that divides the articles into nine categories,
and to a complex system of filters that
allows you to view products by main types
and characteristics.

Download

Are you going to replace your internal hard drive with a SSD or a new hard drive? The Ewent external hard drive enclosures are the ideal solution to give your old internal hard drive a new life. You will have quick and easy additional storage space that you can easily take along with you. Ewent offers a solution for every type of hard drive. The 2.5 inch enclosures are suitable for HDDs and SSDs with a SATA or M.2 interface. They are connected to your laptop or PC via the supplied USB-A connection cable. The EW7025, EW7070, EW7072, EW7075 and EW7077 are also suitable for connection to the USB-C port of your laptop or PC.

Ewent offers a range of compact USB hubs that easily fit in your bag. These hubs offer additional USB ports for your notebook and computer at home or on the road. The EW1137 / 1134 / 1133 hubs support up to 4 USB devices and are compatible with the fast USB 3.2 Gen1 (SuperSpeed USB) standard with a maximum transfer speed up to 5 gigabit per second.

Do you have a laptop with USB-C ports and do you want to connect USB-A devices to it. Ewent has the solution! The EW1137 and EW1141 USB-C Hubs ensure that you can continue to use all peripherals, USB sticks and external hard drives with a USB-A port on a laptop with USB-C connections.

In addition to 3 SuperSpeed USB ports, the 3-Port EW1140 and EW1141 Hubs also have a Gigabit network port for connecting your Ultrabook to a wired network.

Did you know that?

1D barcodes can be scanned with traditional laser scanners, or using camera-based image scanners. 2D barcodes, on the other hand, can only be read using image readers. In addition to having more information, 2D barcodes can be very small, making them useful for marking objects that would otherwise be impractical for 1D barcode labels. With laser engraving and other permanent marking technologies, 2D barcodes have been used to track everything from delicate electronic printed circuit boards to surgical instruments. 1D barcodes, on the other hand, are well suited for identifying items that may be associated with other information that changes frequently. To continue with the UPC example, the item the UPC identifies will not change, although the price of that item does frequently; That is why linking the static data (item number) to the dynamic data (the price database) is a better option than encoding the price information in the barcode itself. 2D barcode2D barcodes have increasingly been used in manufacturing and supply chain applications as the cost of image scanners has dropped. By switching to 2D barcodes, companies can encode more product data, while making it easier to scan items as they move on assembly lines or conveyors - and it can be done without worrying about scanner alignment. This is especially true in the electronics, pharmaceutical, and medical equipment industries where companies are tasked with providing a large amount of product tracking information on a few very small items. For example, the US FDA's UDI (Unique Device Identifier) rules require multiple pieces of manufacturing information to be included on certain types of medical devices. That data could be easily encoded in very small 2D barcodes.

TECHNOLOGY CCD or LASER:

Laser scanners are the most used for technical reasons. Thanks to the powerful technology offered by laser light, these barcode readers allow correct reading on any type of surface, regardless of the roughness, texture or curve that may be have the surface where it has been printed. The reading distance is more than 30 cm. and they have a depth of field of 5 m. or more. CCD (Charge Coupled Device) readers that work through a CCD photodetector sensor formed by a set of LEDs that emit light sources and shape to capture the information contained in the barcode. This type of reader is characterized by reading damaged or poor print quality codes, and laminated codes. The truth is that it is one of the best reader solutions you can find on the market.

Enjoy working on your computer with the optical mice of Ewent!

The optical precision of these mice ensures everything you need to continue working. The Ewent mice are equipped with a scroll wheel and work on almost every surface.

The wireless optical mice come with a Nano USB receiver and feature intelligent energy-saving mode to extend the battery life.

Many common symptoms of hand/mouse related strain are prevented and reduced by using an ergonomic mouse.

Work more comfortably thanks to the ergonomic design. Your hand, wrist and forearm are supported more naturally.

Enjoy your favourite music, games or videos played from your computer, smartphone and tablet in high quality audio with the Ewent Speakers.

The Ewent headphones are of high quality and let you enjoy your conversation easily.

Connecting the headsets is very easy. Our headsets are equipped with two separately coloured mini-jack plugs that you connect to the microphone input and speaker output of your computer.

After that you only have to adjust the volume on your computer.

Home & Car Chargers

All chargers are tested and inspected by a notified body organisation (such as TUV and SGS). As a result, our products meet the safety requirements of the relevant standard that is set within Europe. In addition, every new batch is tested by us in our testing room.

- * GaN Fast: Gallium Nitride which is a type of material used to make power electronics (increase the efficiency of the charger and reduce the size and weight of the charger)
- ** FCP: Fast Charge Protocol belongs to Huawei
- ** AFC: Adaptive Fast Charging belongs to Samsung.
- *** PPS (Programmable Power supply): that is a standard that refers to the advanced charging technology for USB-C devices (capability to lower conversion loss during charging: less heat is generated, which lengthens the device battery's lifespan)

Monitor stands

Create an ergonomic and space-saving work environment by using the Ewent Desk Mounts. Place your monitor to your ideal height and viewing angle for a better posture and thus avoid back, neck and shoulder complaints.

The Ewent desk mounts are easy attachable to your desk with the enclosed clamp or grommet mount. The desk mounts can easily be adjusted in height and depth without tools. Tilt, swivel and rotate the screens to create an ideal ergonomic work environment. All cables are kept out of sight thanks to the cable management system. The EW1515 and EW1516 desk mounts are equipped with a convenient gas spring system to adjust your monitor to your ideal height and viewing angle with just one hand. Ideal for flexible workspaces! Furthermore, the EW1515 and EW1516 have integrated extension ports for USB 3.1 Gen1 (USB 3.0), microphone and speaker jack. Mount 2 monitors side-by-side using the EW1518 desk mount with crossbar. The crossbar design provides extra space on your desk.

Charge Cart - 30 Devices - Intelligent Charging System

EW1700

OVERVIEW

The EW1700 Charge Cart allows you to easily secure, store and charge up to 30 Chromebook or notebook devices with up to 17" screens. It features an Intelligent charging system, shelves with flexible, durable device slots, a power supply/cable management system and best of all – it's fully assembled for rapid deployment. Additionally, it features numbered device spaces and corresponding power supply spaces to optimize organization. The Cart also features vented doors with a 3-point key lock mechanism and the option to add your own padlock for extra security.

- Shelves with flexible and durable device dividers allow you to easily store and remove almost any Chromebook, laptop, or tablet
- Efficient intelligent charging system for all of your devices from one plug while protecting circuits from overloading. The charging system will provide power to the first half of the outlets for 15 minutes. When that time expires, the cart will change power to the other set, and continue to alternate sides. Once the total current is less than 14 amps, it will power all the outlets at once. The LED indicator on the outside of the cart will show you which set is currently charging
- Cable management in the front device section and separate rear power section easily organizes power supplies and routes cables to each device
- Both the device section and separate rear power section feature steel doors with 3-point key lock mechanism and the option to add your own padlock for extra security
- 5" high-grade wheels with brakes and direction lock, and a recessed push handle for maximum mobility

SPECIFICATION

- Color: Black / Dark Grey
- Material: High-grade 18 gauge cold rolled steel
- Package includes: Cart / AC Power Cable / Keys
- Product Dimension: 600 x 580 x 1127 mm
- Package dimensions: 650 x 630 x 1272 mm
- Product Weigh: 82 Kg
- Package Weight: 98 Kg
- Cable Management: Yes
- Charging System: Intelligent Power Sensing
- Device Slot Dimensions: 422 x 34.3 x 286 mm (16.61 x 1.35 x 11.26 in)
- Fully Assembled: Yes
- Operating Humidity: 20% to 80% RH
- Operating Temperature: -10°C to 40°C
- Storage Humidity: 20% to 90% RH
- Storage Temperature: -40°C to +60°C
- AC Cord length: 1.83m (1.00 mm²)

It allows cutting it into sections of different lengths, making holes in it, bending it, folding it, etc.	Organize and protect all your cables. It allows cutting it into sections of different lengths, making holes in it, bending it, folding it, etc.	Made of highly resistant and highly flexible Neoprene, it protects your cables from dirt, dust and footsteps. Being neoprene, it protects from moisture. Equipped with a zipper closure, there is greater support for the cables it protects.

HDMI switch & splitter | Videograbber | Extender

The EW3730 4K HDMI Switch 3x1 enables you to display 3 HDMI sources on one TV/screen. The Ewent EW3720 4K HDMI Splitter splits a single HDMI signal to two separate TVs/screens. Convert you video tapes easily to DVD with the EW3707 Ewent Video Grabber. The EW1580 IR Extender Kit extends the IR signal of your remote control and lets you send commands to the A/V equipment that is hidden behind doors or stored in a closed cabinet. The EW1580 comes with 12 IR emitters for controlling 12 AV devices. The extender is powered via the included adapter.

Notebook power adapter

All Ewent laptop chargers come with a quadruple safety system that protects against overheating, over voltage, over current and short circuit.
If the battery of your netbook or notebook is full, the Ewent charger automatically stops charging. Free tip service! Always the right tip for your laptop! Ewent offers several tips with the charger. Is your tip missing? You can easily apply through: <https://support.ewent-online.com/hc/requests/new>. The tip will be sent for free.
Due to a different loading technology, it is not possible to provide traditional laptop chargers with a Type-C tip.

Replace your computer's power supply with the EW3909 or EW3908 ATX Replacement PC Power Supply. These power supplies have smart fan control. The fan speed is controlled by the temperature. When the temperature of the power supply is too high, the fan speed will increase. PFC support ensures a more efficient power throughput. The EW3907 and EW3908 have over temperature protection, over voltage protection, over current protection and short circuit protection.

Power Socket | Input Connector F-TYPE

Power your devices with the Ewent Power Blocks. You can power 3 electrical devices and 3 USB devices at the same time. The USB ports provide 2.4A and are equipped with short circuit protection and over current protection. The three power sockets are equipped with child protection. Put the Power Block easily on your desk with the included mounting pad. This mounting pad prevents the power block from sliding off the desk. Enable or disable all connected devices at the same time with the illuminated on/off switch. The Ewent Power Strips provide premium power protection for computers, audio/video equipment and other household devices. Its slim, sleek design blends seamlessly with today's modern electronics and appliances. Nothing to worry about, with the built-in child protection.

Desktop Multi Power Socket with 2 USB ports

5x Schuko 45° angled

Plug all power supplies easily without covering adjacent outlets

2x USB charging ports

Power and charge your USB devices

On/Off Switch

Turn the power outlet off to avoid current waste

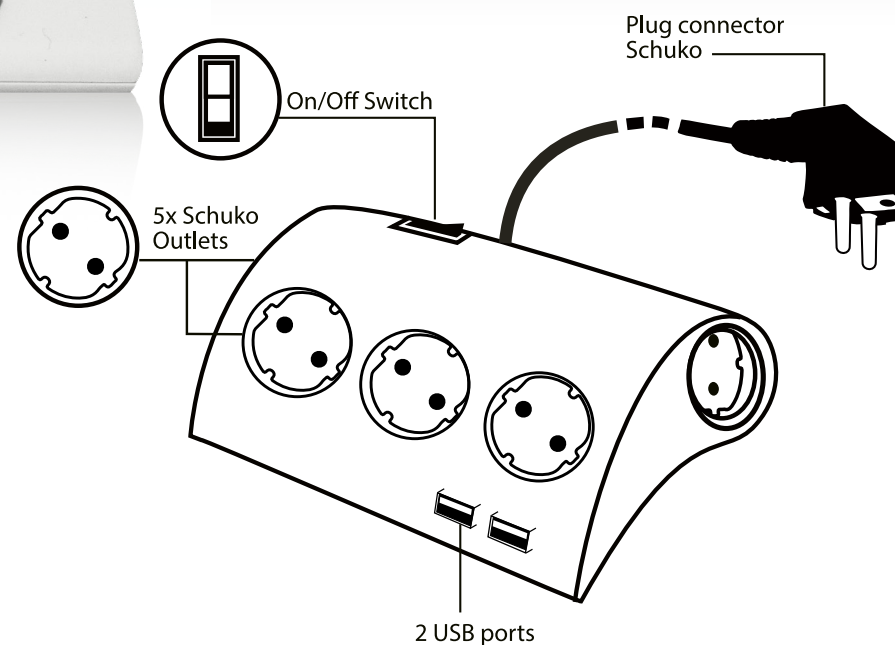

Overload & Surge Protection

Keep your equipment safe

Children Protection

Prevent children from putting fingers or sharp objects into the holes

Line interactive UPS

A UPS supplies the connected equipment with an uninterrupted voltage so that a server, router or computer continues to function for a while in the event of a power failure. This allows the equipment to be securely closed. A UPS provides a more stable voltage and frequency, and offers better protection against voltage drop, short circuit, overload, voltage fluctuations and voltage peaks.

The Ewent EW5600, EW5601 and EW5605 Air Duster are powerful air sprays which remove effectively dust and loose dirt from keyboards, printers and other electronic equipment. For cleaning detailed and precise work, the Air Dusters come with a handy extension tube. The EW5600 can also be used upside-down.

The EW5671 and EW5612 screen cleaners are ideal for removing dust, dirt and fingerprints on your tablet, smartphone and computer screens. Remove oxidation from electronic contacts with the EW5614. Ideal for electromechanical contacts and sensors. The EW5611 and EW5613 Isopropyl Alcohol sprays are ideal for cleaning printed circuit boards and plastic parts of computers and printers.

Function	Powerful air blower for cleaning computers, keyboards, photo optics, ornaments and general objects
Air Flow	7-8KPA
Power	60W
Fan Speed	60000 RPM
Fan Type	Metal
Battery	7500 mAh rechargeable lithium-ion battery
Charging Port	USB-C
Operation time	25 minutes continuously
Recharge Time	2 hours
Supported Voltage	5.0V 2A and QC 9.0V 2A
Included Accessories	Spout, nozzle with brush, USB-C to USB-A charging cable
Extra	Inflation function of mats, balls and other inflatables

Laptop cases and sleeves come in many shapes and sizes. Ewent has selected a series of laptop bags that meet today’s user requirements of a laptop bag. The Ewent Urban Bailhandle, backpack and the City Sleeve series are trendy bags with a business touch. These series of laptop bags are suitable for both business users and consumers. Ewent Urban bags are equipped with enough pockets to store your documents and accessories. With additional compartment to store your tablet (max. 10.1”) The bags are lightweight and made of strong, water-repellent material. The Ewent City Sleeve series have a convenient storage compartment at the front. You can easily store documents and accessories.

- Protection **Protection against scratches

USB-C Video Adapters

USB-C HDMI - DisplayPort and VGA-Adapters

The Ewent USB-C to HDMI-, DisplayPort- and VGA-Adapters connect your notebook with USB-C to a monitor or beamer with HDMI/DisplayPort or VGA-input. The maximum supported resolution is 4096 x 2160 (4K). This resolution is ideal for displaying videos, pictures, presentations etc. Please make sure the USB-C port of your notebook supports DP Alt Mode.

Ewent means excellent and that is what we want to be!

Designed for daily use

Technology sets pace for changing human's every day habits and customs. Many people cannot imagine to live without smartphones and tablets anymore. Through networks we are getting more and more connected. More products means more complexity. Ewent strives to create solutions to make the use of technological products easy. We create solutions by looking not only at what a product can do, but above all how people make use of it.

The Ewent product developers have a clear goal when a product is developed. Each product must be easy to use and easy to install. We take a close look at how our customers use the products in their daily environment. Since technology keeps evolving and consumer demands are subject to change, Ewent continuously offer product updates.

As a result, our products meet the expectations from today and tomorrow. The Ewent manuals are available in many different languages and are showing how a product must be used. Instead of only speaking in technical terms, we are providing practical tips and recommendations, so that manuals are accessible for everyone.

ewent

The Ewent product line-up includes several product groups: USB and HDD/SSD accessories, hub's and card readers, ICT accessories for use with pc, laptop or tablet, Ergonomic solutions like Monitor and TV supports/carts and workstation. Power accessories like laptop, tablet and phone chargers, Home power strips. Cleaning and maintenance products.

Ewent offers besides copper and fiber connectivity. This special developed business line includes Audio & Video cables, USB-C cables and docking station and convertes, Installation Lan cables and copper and fiber patch cords. Ewent products do have competitive prices. The products distinguish themselves by their stylish design and easy installation. The main aim of Ewent is to create solutions about how to use technology in an easy way. We need to get insight about how and why the consumer uses the product and not only focus on the technical features of a product. Ewent offers friendly solutions with a clear instruction guide. The users get support via YouTube videos, social media and accessible helpdesk.

We care about our looks

The attractive and clear Ewent packagings show the functionality of the products. Each product category has its own colour, which helps consumers to find the right product. We consider the packaging an important tool to communicate the features of a product.

A different kind of service

In some cases a multilingual manual does not provide the answer to all questions. Therefore, Ewent is focusing on their sales and after sales support.

5 years warranty

We, at Ewent, do believe in our products. That is why we provide 5 years warranty along almost all of our products.

Service Center

Our Service Center is well-known for their quick and excellent support. May a product not work as expected? Our highest priority is to come up with an adequate solution.

Accessible Helpdesk

When consumers are needing extra support with extra support with their products our accessible helpdesk can be contacted by email, facebook messenger and website. Our multilingual support agents are pased to help.
